

Thinglink workshop – little steps

1. "IC-green"-photo from the home school should be on the PC you have with you here in Derval.
2. Create an account on <https://www.thinglink.com/> (whether or not via your Facebook account).

3. Import your photo into your account via "Create" and then "Upload image" or "Import from URL".

4. Edit the photo you just have loaded on the **Thinglink** platform with the free option.
5. Put interesting information on the photo via tags.
 1. Add a video tag
 2. Add a text tag
 3. Add a link tag
 4. Add a sound tag
6. Use the internet to add usefull information.

7. The best or the most original Thinglink creation on green energy will win a typical Belgian price! We elect a winner before the end of this French mobility. Put the link to your creation on the IC-green facebook group.
